REMINDER OF SOME IMPORTANT RULES

1. **Tests make-up policy:** Make sure now that you will be able to attend all tests as **no make-up tests will be given without an official excuse** (a medical excuse from GT Stamps Health Services or your personal physician or documented exceptional circumstances). **You will need to communicate with the Dean of Students office in order to seek make-ups.**

2. **Class attendance:** This is a **3 Credit-Hour residential class. Attendance is expected** and lectures won't be recorded. An absence is excused if a) you are required to participate in an official GT activity (documentation required) b) you are under a doctor's care or scheduled an emergency doctor appointment (documentation required) c) you are granted a leave of absence from GT for reasonable cause by an academic dean (documentation required) d) documented illness or a significant life-event prevents you from attending class e) you are observing a major religious holiday f) going to a job/internship interview (documentation required). **Feel free to attend a section scheduled before or after the one in which you are regularly enrolled to avoid incurring unexcused absences. You are allowed 3 unexcused absences** (scheduled flights or trips, picking up relatives at the airport, chauffeuring a friend somewhere, going to a wedding/reunion) **without penalty. EACH additional absence will result in the subtraction of 2 points from your course participation grade (on a 100 scale).**

3. **Honor Code:** When working on homework, you may not work with other students, and doing such is a violation of the GT Academic Honor Code. Submitting any work other than your own is also a violation of the Academic Honor Code.

Do not plagiarize! Plagiarizing is defined by Webster's as "to steal and pass off (the ideas or words of another) as one's own: use (another's production) without crediting the source." If are caught plagiarizing, you will be dealt with according to the GT Academic Honor Code.

4. Cheating off of another person's test or quiz is unethical and unacceptable. Cheating off of anyone else's work is a direct violation of the GT Academic Honor Code, and will be dealt with accordingly. For any questions involving these or any other Academic Honor Code issues, please consult me or click www.honor.gatech.edu

5. Health-Related Considerations

For more information about Covid-related guidelines, please review <https://health.gatech.edu/tech-moving-forward>

STUDY TIPS

1. Use every opportunity to speak, hear and read French. Keep on trying to keep a conversation going. **Be willing to take risks, trying out the new structures and vocabulary you are learning.** Students who play it safe (stick to the simple, reliable forms instead of trying new ones) will only hold themselves back. There is no disgrace goofing with something you didn't know; but progress comes from learning from it and doing better next time. As you are beginners, you should not be afraid to make mistakes. They are a necessary part of the learning process. Never fear to ask for help: often the same thing puzzling you is confusing others too. Get help fast when you need it; do not let problems develop. **Schedule appointments with the instructor to discuss honestly your progress and difficulties. Attend office hours and set up practice sessions with your classmates.**

2. Do not fall behind in your work. Be organized: do your homework in time. 'Catching up' is extremely difficult in a beginners language course. Success depends largely on regular contact with the material (In practicing a skill, four 15 minute-study periods with full concentration may work better for you than one-hour sessions). Don't be satisfied with knowing the material. Be sure to practice enough times to be able to perform it with relative ease and fluency. Tests examine not only what you know, but how well you know it and how quickly you can put it into use.

3. Watch yourself as a learner: try to determine what type of material helps you learn best and what doesn't. Ask for help from your instructor. Avoid translation at all costs: you want to develop skills in French, and it doubles your processing time. It is more useful to develop the ability to paraphrase ('circumlocute').

4. Design your own learning aids: flashcards, charts, lists, repertoires, website, etc. This will help you memorize and recycle the material. Take advantage of cognates while building your vocabulary. Put tricky points on cards to carry with you and take advantage of those mentally idle moments in your day (walking, standing in line, eating breakfast, etc.) to practice the language. Memorize not only vocabulary, but useful formulas you can rely on to get things done.

5. Assume that grammar and syntax do mean something. In Romance languages, among others, place, form and endings of words can make a huge difference in meaning, and have for hundreds of years. Make good use of the Supersite Plus grammar tutorials and PowerPoint presentations.

6. Practice out loud. Read the material and learn the spelling of the words. Use the website's suggestions to improve on your speaking and listening abilities. **Pair-up with a student or two to practice together online.**

7. If you ever feel uncomfortable, if you want me to focus on one aspect of your learning (pronunciation of a certain sound, grammar, vocabulary etc.) or if you need additional practice, let me know. **My office hours are devoted to you. Never hesitate to talk to me!** I want to hear from you.

Some of these suggestions come from the Middlebury College Summer Language School Handbook, 1997, the Wake Forest University Romance Languages Home Page and the following individuals: Kara Rabitt, Joan McRae, and Lucile Duperron. Also see Joan Rubin & Irene Thompson, *How to be a More Successful Language Learner*, Heinle & Heinle, 1982, or H. Douglas Brown, *A Practical Guide to Language Learning*, McGraw Hill, 1989).
